GUARANTEE

All bulbs sold under the above price schedule are large size, top quality stock grown on our own farms, warranted free of disease and true to name, separately packed and labeled by variety. Any complaints as to quality or condition of stock, if made within 10 days of delivery, will assure the purchaser a refund, replacement or other satisfactory adjustment. Since the bulbs will be grown under various conditions which we cannot foresee or control no absolute warranty of performance can be given, but your goodwill is indispensable to our success and **no transaction is final until you are completely satisfied.** We welcome correspondence, particularly reports of results obtained by those growing our bulbs for the first time, and such advice or information as we can supply is always at the service of customers, old and new.

CONDITIONS OF SALE

TERMS: Payment in full with order, preferably by check, money order or postal note. Cash is sent at the customer's risk; no stamps will be accepted.

POSTAGE: We pay all transportation charges except on orders of less than \$2.00, which should include 10% extra.

Most orders are sent by parcel post; large ones may be forwarded by express at our option.

TIME OF DELIVERY: Immediately on receipt of order, in the absence of other instructions. Customers living in the colder regions who may desire us to defer delivery until the proper planting season will receive prompt acknowledgment, together with notification of proposed date.

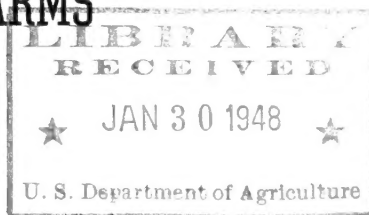

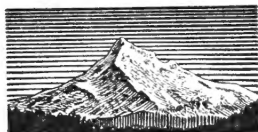

QUANTITY PRICES: 25 bulbs of any variety are sold at the 100 rate, which is 7 times the dozen price. 250 bulbs of any variety at the 1000 rate, which is 8 times the 100 price or write for quotations.

EXTRAS: The within announced offer of free bulbs to be included with orders received before January 31, 1948, applies only to orders made up from the alphabetical listing of varieties and based on accompanying prices. It is inoperative with respect to special offerings, collections and mixtures which are heavily discounted in advance.

SUBSTITUTIONS: Since many varieties are strictly limited in quantity it is always advisable to indicate a few second choices when ordering, unless you wish to leave this to our judgment. No substitution will be effected without your authorization; when in doubt as to the customer's wishes on this point we generally supply the lack of one kind by giving extra count on another. All substitutions made at our discretion are guaranteed to be of similar kind and equal or greater value.

1948 ADVANCE LIST

OREGON GROWN GLADIOLUS

PRICES EFFECTIVE NOVEMBER 15, 1947

Extra Bulbs FREE with Early Orders

With digging nearly completed and the curing and grading of our stock well under way, we are now assured of a bumper crop for 1948 despite highly adverse conditions from the weather standpoint and continuing high costs of production. Increased acreage enables us not only to present a schedule of prices sharply reduced from last year in nearly all varieties, but to offer our customers an additional FREE DIVIDEND on early orders which cannot be duplicated anywhere under a similar TOP QUALITY, MONEY-BACK GUARANTEE.

With every order from the following list received before January 31, 1948, we will include free of charge extra bulbs of our choice to the value of 25% of the order on those amounting to \$3.00 or more; with orders of \$10.00 or more 50% of the value, and with orders of \$25.00 and up ONE HUNDRED PER CENT EXTRA—exactly double! Although

with so varied a list as ours and the inevitable future shortages in some varieties we must reserve the right to decide which extras you are to receive, you are welcome to name preferences which we will endeavor to follow, subject to stock or other limitations. The present low prices will remain unchanged in our full illustrated catalog describing more than 100 varieties which will be ready early next year, but this unprecedented offer cannot be repeated on so lavish a scale. Remember that only orders received before January 31 can qualify, and that your order can be held for Spring delivery if desired. An immediate response will secure the full benefit of our free extra dividend up to 100% of the value of your order, assuring you at the same time against later disappointment in obtaining the bulbs you particularly want. Orders scheduled for future delivery will be promptly acknowledged, and the bulbs reserved for shipment on the date specified.
